

FUTURE BIKE SIMULATOR

ENGLISH

In 1995 extreme legislation by world governments banned the motorcycle as we know it today.

Finnius M Houlder, multi-billionaire extraordinaire and almost certainly the world's richest man, incensed by this banning of his most loved sport - the motorcycle - set his research labs to work on a 'legal' replacement. A vehicle that got around the laws.

In 1999, the result - **FUTURE BIKE**.

Capable of speeds in excess of 300 mph in fully faired form this anti-grav wheel-less wonder took the world by storm. Finnus Houlder bought up large chunks of land (privatised motorways) in virtually every industrialised country.

The result - **THE STRIP**.

No juggernauts, no jam sandwiches, no fast lane crawlers, just out and out speed, but, watch out, there are hazards.

FUTURE BIKE SIMULATOR - THE GAME

Essential Info:

The control panel displays on screen, information about your score, energy level, lives remaining, high score, money carried, radar and shield.

When a shield is bought, it is displayed as a full shield and as it runs out, so the shield disintegrates.

ENEMIES

All enemies, when shot, will drop money. The amount of money dropped depends on the strength of the enemy.

The money can be used to buy items from the shop.

Mines appear in front of you and contact with these will result in an energy loss.

All bombs, like mines, appear in front of you. Contact with one of these will cause you to lose some of your money.

WEAPONS

There are many additional weapons that can be added to your bike. These include Missiles.

Sidearms and Radar. The others you must find out for yourself.

NOTE: Sidearms are sold singly - one left, one right.

SHOP

At various points in the game, you will enter the shop.

It is here that you may buy the additional extra weapons.

PLEASE NOTE: CREDIT CARDS ARE NOT ACCEPTED.

When you enter the shop, you will see a number of icons denoting the items you may buy.

Positioning the hand over items will display their prices, pressing FIRE will buy the item.

Should you buy too many of certain items you will be given a 'Ship Overload' warning. This will be shown, for example, if you buy three side arms. To exit the shop, position hand over the Future Bike and press FIRE.

ULTIMATE AIM OF THE GAME

Your challenge is simple - ride the Strip on your Future Bike through City, Desert, River Rapids, Ice Floes, Mountains AND SURVIVE!!!

LOADING INSTRUCTIONS
Reset machine, insert disk into drive.

KEYS

Joystick only.

P - Pause (to resume press P or FIRE).

ESC - Quit game.

F - Fast mode (for ultra speed freak, runs game at 25Hz).

N - Normal mode (runs game at 16.7Hz).

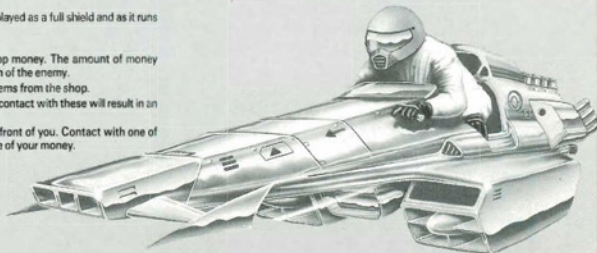

Hold down FIRE at the end of game for quick game start.

GERMAN

FUTURE BIKE SIMULATOR

1995 veränderten die Regierungen der Welt Gesetze, die das Motorrad, wie wir es heute kennen, aus dem Verkehr zogen.

Finnius M Houlder, Multi-Milliardär und sicherlich der reichste Mann der Welt, war über dieses Verbot seines Lieblingsports so erbost, daß er seinen Forschungslabors den Auftrag gab, einen legalen Ersatz zu erfinden.

1999 war endlich das Ergebnis da - **FUTURE BIKE**.

Dieses radlose, gegen die Schwerkraft wirkende Wunderding, das Geschwindigkeiten von mehr als 300 Meilen in der Stunde erreichte, eroberte die Welt im Sturm. Finnus Houlder kaufte große Grundstücke (private Autobahnen) in fast jedem Land.

Das Ergebnis - **THE STRIP**.

Keine Schwerlast, keine Staus; keine Kriecher auf der Überholspur, nur Geschwindigkeit, aber Vorsicht, es lauern Gefahren.

LADENLEITUNG

Maschine einstellen, Diskette laden.

TASTEN

P - Pause (zum weiterspielen, P oder FEUER drücken).

ESC - Spiel beenden.

F - Schneller Modus (für Ultra-Speed Freak, Spiel läuft mit 25 Hz).

N - Normaler Modus (Spiel läuft mit 16,7 Hz).

Am Spielende FEUER zum schnellen Spielstart gedrückt halten.

FRENCH

FUTURE BIKE SIMULATOR (SIMULATEUR DE MOTO DU FUTUR)

En 1995, une loi excessive votée par les gouvernements du monde a aboli la moto telle que nous la connaissons aujourd'hui.

Finnius M Houlder, multimilliardaire extraordinaire et probablement l'homme le plus riche du monde, outré par cet interdit qui frappe son sport préféré, la moto, a demandé à ses laboratoires de recherches de mettre au point un remplacement "admis". Un véhicule qui contournerait la loi...

En 1999, le résultat - **FUTURE BIKE**.

Capable d'atteindre des vitesses dépassant les 500 km/h, cette merveille entièrement aérodynamique, anti gravité, sans roues, remporta un succès fulgurant dans le monde entier. Finnus Houlder racheta tous les grands terrains (autoroutes privatisées) dans pratiquement tous les pays industrialisés.

Le résultat - **LA PISTE**.

Plus de mastodontes, plus d'embouteillages, plus de véhicules lents sur la voie rapide, juste la vitesse pour la vitesse, mais soyez prudents!

INSTRUCTIONS DE CHARGEMENT

Reinitialisez la machine, insérez la disquette dans l'unité.

TOUCHES

Joystick uniquement.

P - Pause (pour recommencer, appuyez sur P ou sur FEU).

ESC - Quitter le jeu.

F - Mode rapide (pour les fans de la vitesse, fait passer le jeu à 25 Hz).

N - Mode normal (fait passer le jeu à 16,7 Hz).

Maintenir FEU enfoncé à la fin de la partie pour recommencer à jouer rapidement.

ITALIAN

SIMULATORE MOTOCICLETTA FUTURA

Nel 1995 vari governi mondiali introdussero una nuova legge per proibire la motocicletta.

Finnius M Houlder, un multi milionario, e probabilmente l'uomo più ricco del mondo, reso furioso dal divieto del suo sport preferito, quello della motocicletta, ha incaricato i suoi laboratori di ricerca di inventare una sostituzione "legale" della motocicletta. Un veicolo che non infrange la legge.

Nel 1999 ecco il risultato - **MOTOCICLETTA FUTURA**.

Capace di velocità oltre le 300 miglia all'ora, di forma totalmente aerodinamica, questa meraviglia anti-gravitazionale senza ruote, prese d'assalto il mondo. Finnus Houlder ha anche comprato vaste proprietà di terreno (autostrade privatizzate) in ogni Paese industrializzato.

Il risultato - **LO STRIP**.

Niente articolati, niente ingorghi, niente lumache sulle corsie di sorpasso, solo velocità industriale, ma, fate attenzione: ci sono dei pericoli.

ISTRUZIONI DI CARICO

Ripristinare la macchina, inserire il disco nel drive.

TASTI

Solo comando a cloche.

P - Pausa (per ricominciare premere P o FIRE).

ESC - Abbandonare il gioco.

F - Modo veloce (per velocità ultra, fa funzionare il gioco a 25 Hz).

N - Modo normale (fa funzionare il gioco a 16,7 Hz).

Tenere premuto FIRE al termine del gioco per un inizio veloce del gioco.

SPANISH

FUTURE BIKE SIMULATOR (SIMULADOR DE MOTO FUTURA)

En 1995 una legislación muy estricta de los gobiernos mundiales prohibió la moto, en el sentido que la entendemos ahora.

Finnius M Houlder, el multimillonario y casi seguro el hombre más rico del mundo, furioso por la prohibición de su deporte favorito, el motociclismo, hizo estudiar en sus laboratorios una moto sustituta "legal", una moto que se escapara de las leyes.

El resultado, en 1999 - **LA MOTO DEL FUTURO (FUTURE BIKE)**.

Esta maravilla anti-gravedad, sin ruedas, totalmente aerodinámica, capaz de ir a más de 500 Km/hora, asombró a todo el mundo. Finnus Houlder compró grandes terrenos (autopistas privadas) en prácticamente todos los países industrializados.

El resultado - **LA PISTA (THE STRIP)**.

Sin estorbos de grandes camiones, ni embotellamientos, ni dominque ros; sólo velocidad a todo gas, pero, cuidado, hay riesgos.

INSTRUCCIONES DE CARGA

Reinicializa la máquina y mete el disco en el accionador.

TECLAS

Sólo palanca.

P - Pausa (para volver a empezar pulsa P o DISPARO).

ESC - Abandono.

F - Acción rápida (para supervelocidad, acciona el juego a 25Hz).

N - Modo manual (acciona el juego a 16,7 Hz).

Al acabar un juego reten pulsado DISPARO, para empezar rápidamente otro.
